

Practice Complaints Policy

We aim to deal with complaints in a professional and considerate manner.

A copy of the complaints procedure will be given to the patient when the complaint is acknowledged.

A thorough investigation of each complaint will be made within 3 working days.

Every effort will be made to resolve the complaint and a fair solution be found.

At the end of the investigation the patient will get a letter explaining

- a. What has been decided
- b. Any practical solutions we are prepared to offer.

A written log of complaints will be kept to monitor how well the complaint is handled and identify areas of improvement.

A copy of the complaint will not be kept in the patient's record card.

Changes will be made to Practice procedures or policies if deemed necessary, following the investigation.

Should a patient remain dissatisfied following an in house investigation of the complaint, the next stage will be to go through the NHS complaints procedures or Dental Complaints Service.
